EDUCATION

BTech in Data Science (CGPA - 6.67)
2020 - 2024
NIIT University

Class 12th (CGPA - 9.1)
2018 - 2020
Narayana IIT

Class 12th (CGPA - 10)
2018
Vijeta High School

INTERNSHIPS

HEAD OF RESEARCH
Global Hosiery
Jun 2023 - Present

- Drive research on marketing and production decisions
- Ensured seamless coordination between design and manufacturing teams
- Utilizing e-commerce platforms to sell products

TEACHING ASSISTANT & STUDENT CO-ORDINATOR
NIIT University
May 2023 - Present

- Teaching volunteers on Digital Empowerment of MSMEs
- Student co-ordinator for capacity building program under community connect of MSME Development

PROJECTS

R&D Project for Digital Empowerment of Indian MSMEs

Led the project and developed a capacity building program, secured NGO collaboration for volunteer training, and secured 150,000 Rs funds for NIIT University.

Capstone - MERN Application for Healthcare

A basic application using MERN stack that helps manage student and medicine records for a health center and even send reminder emails for returning items.

Face Recognition Attendance System Using Python

The project involves capturing live webcam feed, detecting faces in real-time, recognizing those faces based on pre-trained facial encodings, and marking attendance for recognized individuals in excel.

Music Genre Classification

A mini machine learning model for music genre classification. Utilized the GTZAN dataset to build a classification system that predicts the genre of music tracks based on their audio features.

ACHIEVEMENTS

Certificate of Conference

Presented the Research & Development project as a research paper at a national conference hosted by Raffles University and received a certificate of presentation.

SKILLS

- Python
- SQL | MongoDB
- R Programming
- Power BI | Excel
- HTML | CSS | Java Script | React
- Word Press | Canva
- Git

SOFT SKILLS

- Communication skills
- Adaptability
- Willingness to learn
- Time Management

INTERESTS

- Fiction Writing
- Listening Music
- Sketching
